Notice 1

Dear All,

Following the tests continued in the recent past, the internet quota management system has seen rapid positive developments. Thank you all for the support you've given so far.

Those who login using domain credentials (staff pc, lab machines) are not troubled by the portal window asking credentials. Those who are using personal pc are still required to authenticate using portal.

To authenticate using portal:

1. Use your domain credentials
2. Successful login take you to the below screen
3. Do not close this window until you're done with browsing
4. You can check your usage "Click here to check my Quota usage"
5. Let us know your experience
